

IFYS VALUES

INTEGRITY

We use **integrity** to ensure we are always doing the right thing, not what benefits us personally (even if no one is watching).

RESPECT

We always need to show **respect** for others' choices and help to achieve them, (even if we disagree).

INCLUSIVENESS

Being mindful and respectfully curious about individual differences and cultural backgrounds enables us to behave in an **inclusive** way.

COMPASSION

Compassion is a genuine empathy with others to help them to manage, learn and grow without judgement.

TEAMWORK

Putting aside what is in it for ME, and choosing what is best for the group, with our services users, colleagues and external collaborators is **teamwork**.
